VANDERBURGH COUNTY)

CONDITIONS, RESERVATIONS, RESTRICTIONS AND
PROTECTIVE COVENANTS (COVENANTS) AFFECTING
TITLE TO ALL LOTS IN KEYSTONE SUBDIVISION
SECTION I, A SUBDIVISION LOCATED IN
VANDERBURGH COUNTY, INDIANA, ACCORDING
TO THE RECORDED PLAT THEREOF

The undersigned, O.W. Kattmann, Jr., John J. Elpers, Jr., and W. C. Bussing, Jr., Member-Managers of KEYSTONE DEVELOPMENT, L.L.C., an Indiana limited liability company do hereby establish the covenants hereinafter set forth. Keystone Development, L.L.C., is the owner of all lots and lands comprising the recorded subdivision known and designated as Keystone Subdivision, Section I, as per plat thereof, recorded in Plat Book P at page 42 in the office of the Recorder of Vanderburgh County, Indiana, and does hereby make and adopt the following covenants, conditions, restrictions and reservations for the use and occupancy of the lots and lands comprising said subdivision, which covenants, conditions, reservations and restrictions shall run with the land and shall be binding upon all owners of the lots and lands in said Keystone Subdivision Section I, to-wit: As shown on Exhibit "A" with Exhibit "B" showing the balance of ground owned by Keystone Development, L.L.C., which may be developed into further sections at a later time as the need therefor arises along with any real estate which the Developer may subsequently acquire and subdivided into lots in Keystone Subdivision, at the Developer's option.

1. RESIDENTIAL LOTS. All lots in this subdivision shall be known and described and used only for single family residential purposes. Other use of any lot or building in this subdivision shall be in violation of the Vanderburgh County Zoning Code.

2. TYPE OF PERMITTED STRUCTURE. No structure, including any television or radio antenna, shall be erected, altered, placed or permitted to remain on any lot other than one (1) single family dwelling, not to exceed two and one-half (2 1/2) stories in height, exclusive of basements or walk-out basements, and a private attached garage for not less than two (2) cars nor more than three (3) cars. In addition, a detached accessory

building may be erected on a lot, providing it is approved in advance by the Subdivision Review Committee as being in conformity and harmony with the main structure. No detached accessory building shall be used for living purposes. All satellite dishes, swing sets, or play areas, shall be placed in rear yards and shall be obscured from view from adjoining property and streets by using shrubs or approved fencing.

3. ARCHITECTURAL CONTROL. No structure shall be erected, placed or altered on any lot until the construction plans and specifications and a plot plan showing the location of the structure have been approved by the Subdivision Review Committee, which shall be appointed by the above named Member Managers of Keystone Development, L.L.C., as to quality of workmanship and material, harmony of external design with existing structures, and as to locations with respect to topography and finish grade elevation. Approval of said structure shall be evidenced by a letter to the owner of such lot and shall be given if the structure conforms to the restrictions and is in reasonable architectural harmony and conformity with others in said subdivision. In no event shall such approval be arbitrarily withheld. Once a plan has been approved, then there shall be no modifications or changes whatsoever to said plans without the prior written consent of the Subdivision Review Committee. After all sections have been platted and recorded, including the land shown in Exhibit "B" and any additional adjoining ground that may be acquired by Keystone Development, L.L.C., and a minimum of eighty percent (80%) of the lots that are platted in the total development of Keystone Subdivision have been sold, then the powers and duties of the Committee shall automatically be transferred to and vested in the Association and thereafter be fulfilled by the Association and a reference to the Committee under these covenants shall then refer to the Association.

4. CONSTRUCTION OF BUILDINGS. The following sets forth the minimum finished living area, exclusive of basements, porches and attached garages, for various types of houses in the Subdivision.

- (a) Lots, all lots in Section I of Keystone subdivision. One story dwellings shall have a minimum finished living area of 1750 square feet. Story and one-half dwellings and two story dwellings shall have a minimum finished living area of 2000 square feet. There must be at least 1000 square feet of living area on the first floor, and 1000 square feet on the second floor. All dwellings shall be constructed of brick, stone, or stucco veneer around the entire perimeter of the home, to a height not less than the top of the windows and doors on the first level of the home. The balance of the veneer of

the home can be done in wood, vinyl, or aluminum siding. The Subdivision Review Committee will approve the location and amount of each veneer, to be used on all homes.

- (b) All fireplace flues, whether they be masonry or metal are to be wrapped with an approved exterior veneer, such as brick, wood, aluminum or vinyl siding. The flue liners are to have no more than 16" exposed above top of chimney.
- (c) All homes are to have a roof pitch of no less than a 6/12 pitch, to be used on the front elevations of the home.
- (d) All homes are to have a lamp post, to be located in the front yard 5 feet inside the front property line. Lamp posts are to be 5' to 6' in height and to be operated by an electric eye. Lamp posts are required to be maintained and lit. No lot is to have an outdoor post lamp with more than 200 watts. There shall be no high intensity lights directed toward the street.
- (e) The property owner that eventually builds a home on a lot is responsible for pouring a 4' wide concrete sidewalk across the entire frontage of the lot. Corner lots are to have concrete walks at their front and side yard. The walks are to be located 2'6" in from the back of curb of the street leaving a 2'6" wide grass median. Sidewalks are to be poured 4" deep, have a broom finish, and have control joints tooled every 4' (saw cut control joints not permitted). The sidewalks require a 1/4" slope in 1', sloping into street. The sidewalk upkeep and accessibility is to be the responsibility of the property owner. All lot owners are to have walks installed no later than two years after purchase of lot or before occupying the home, whichever occurs first.
- (f) Privacy fence design and material are to be approved in advance by the Subdivision Review Committee. Fences shall not be located across the lake maintenance easements. No fence shall be located closer than the 25' set back line at the front of the house. No chain link, or wire fences allowed unless enclosed by an approved fence. All approved fences to be installed with the finished side of the fence to face adjoining lots or adjoining streets. Fences may be installed across easements, except the

lake easement, and along the property line within an easement under the following conditions:

(i) The utilities must all be located and marked by the utility companies before any post excavation or post driving is done within the easement.

(ii) All posts and fences are at the owners risk and must be removed for access by the utilities when requested.

(iii) Utility companies or persons working on the drainage swale are not required to put the fence back up.

(iv) Fence panels across or along the approved and platted drainage easements must be installed so that the lowest horizontal line of fence material is at least nine (9) inches above the bottom of the swale.

(v) Heavy wire fabric with openings at least two (2) inches by two (2) inches may be installed below the nine (9) inch clearance to keep pets within the yard as long as the owner keeps the opening clean and free flowing at all times.

(vi) Fences in side yard swales between lots do not require nine (9) inches clearance; however, they shall not unreasonably impede the flow of water, nor direct said flow onto other's property.

(g) All mail boxes are to be placed and maintained inside the grass area between street and walks, and are to be located so as not to obstruct the view and create a safety hazard.

5. CONCRETE BLOCKS. No completed structure shall have concrete blocks exposed on the exterior of said structure. Brick, stone, or stucco veneer shall be used over exposed block.

6. TIME OF CONSTRUCTION. The construction of any building shall be completed within twelve (12) months from the date of commencement of such construction.

7. CARE OF PROPERTY DURING CONSTRUCTION. All lots in this subdivision are subject to the Indiana Department of

Environmental Management's (I.D.E.M.) General Permit Rule #327 I.A.C. 15-5, which rule generally provides that erosion control practices be used during development and construction and must minimize soil erosion and sediment laden water from flowing from the building sites and requires that streets be kept free from transported soil from the building sites.

In compliance with this provision, a plan has been submitted to the Vanderburgh Soil and Water Conservation District, which plan and its terms shall be binding upon all owners of lots within the Subdivision. Said plan requires the construction of appropriate driveways for ingress and egress during construction and the implementation of measures to minimize sediment laden water from being discharged into streets and drainage ways.

During construction, adjoining lots shall not be used for any construction equipment, vehicles, or material storage purpose. If your employees, contractors or agents are responsible for disturbing the vegetation on adjoining building sites, appropriate erosion control practices should be started immediately.

The provisions of Rule 327 IAC 15-5 and the plan for erosion control submitted to the Vanderburgh Soil and Water Conservation District shall become a part of these covenants and restrictions and shall be binding on all lot owners as it pertains to their individual lots, and said lot owners shall hold the Developer harmless in connection with any and all violations thereof. Furthermore, all lot owners shall be responsible for compliance with this provision and the referenced administrative rules and erosion control plans within the boundaries of each lot owner's real estate. The Developer shall not be responsible and shall have no liability for silt or debris flowing into the lake, and the owners, together with their agents and builders, shall hold harmless and indemnify the Developer from any violation thereof.

8. **BUILDING LINES.** No residence or other building structure shall be constructed nearer to the front property line than the building setback line as shown on the recorded plat of this subdivision, and shall conform to the Vanderburgh County side and rear lot setback lines.

9. **EASEMENTS.** The strips of real estate of the width shown on the recorded plat and marked "easement" are hereby reserved for the use of any and all public utilities and for the installation of water, sewer mains, surface water drainage, poles, ducts, lines and wires, subject at all times to the proper authorities and to the easements herein reserved. No structures or other improvements, planting or other material shall be erected or permitted to remain within the easements which may

damage or interfere with the installation and maintenance of utilities. The easement area of each lot shall be maintained continuously by the owner of said lot so as not to change the intended direction of flow of surface water within the easement.

10. FENCES, TREES AND SHRUBS. No fence or wall shall be placed or permitted to remain on any lot in front of the building setback line, nor shall any trees or shrubs be planted and maintained in such a manner which would create a safety hazard or in such a manner as would distract from the appearance of the subdivision.

11. DRIVEWAYS. All driveways shall be paved with either 4" thick concrete or asphalt equivalent.

12. WASTE DISPOSAL. All lot owners shall keep their lots free of garbage, sewage, ashes, rubbish, bottles, cans, waste matter and other refuse. Trash, garbage or other waste or debris accumulated by the owner or occupant of any lot within the subdivision shall be kept in sanitary containers and shall be disposed of on a weekly basis. All containers or other equipment for the storage or disposal of such materials shall be kept in a clean and sanitary condition, in a location which cannot be seen from the street at the front of the home, and shall be kept in such manner as to avoid an unsightly appearance within the subdivision. No grass clippings, or other debris should be placed on any vacant lot. The lot owner shall only use EPA approved products on his lawn and shrubs.

13. APPEARANCE OF LOTS. All lots must be kept free of debris and other objectionable matter at all times. In the event any lot is not properly maintained as required herein, Developer or Homeowner's Association shall have the right to take all remedial measures to bring said lot into conformity with the standards of the Subdivision. The offending Owner shall be required to reimburse the Developer and/or the Homeowner's Association for said maintenance costs within ten (10) days from the date said Owner is presented with a statement for the costs thereof. If not timely paid, said sum shall be payable, together with interest at the rate of ten percent (10%) per annum and attorneys fees.

When the Developer conveys common ground to the Association as per Paragraph 27, all rights of enforcement under these covenants shall be passed to the Association.

The lake lot owners are responsible for the maintenance of the lake and grounds around the lake which is within their respective lot lines. Maintenance and upkeep includes the following items:

- (a) Keeping lot mowed on a regular basis, and maintaining a stand of quality grass.
- (b) Maintaining erosion control on lot.
- (c) Keeping lake bank free of weeds, moss and other undesirable growth or materials.

14. TEMPORARY STRUCTURES. No structure of a temporary character, trailer, basement, tent, shack, garage, barn or other out building shall be used on any lot in this subdivision or any part thereof at any time as a residence, either temporarily or permanently. No structure shall be moved onto any lot; all structures shall be newly erected thereon, with the exception of approved pre-fab or any other type of yard barns which must be approved as being in conformity and harmony with the main structure.

15. DRAINAGE OF WATER; VANDERBURGH COUNTY DRAINAGE BOARD REQUIREMENTS. Water from downspouts, foundation tile or other surface water drainage systems shall not be drained or guided into the sanitary sewer. The downspout drains can be drained into the street, or drainage swales between lots. Water must be discharged at a level above the street to prevent erosion under the street. The existing natural and manmade drainage courses shall not be altered without the approval of the developer or his appointee. All lot owners and/or their homebuilder or general contractor are responsible for achieving proper grading and slopes of their respective lots, so as to achieve a positive drainage flow away from their foundations and homes and into the drainage easements or streets. A drainage swale will be required between lots, the construction of which shall be the responsibility of the lot owner and his or her homebuilder or general contractor. Such swale shall be constructed correctly before the landscaping of the yard is completed, and maintained correctly thereafter by lot owner of record.

In accordance with the requirements of the Vanderburgh County Drainage Board, the initial lot owners and/or their homebuilder or general contractor are hereby informed that:

(a) the standard grading plan sheets prepared by Morley & Associates are attached hereto as Exhibit "C". Additional copies will be made available to each initial lot owner and/or their homebuilder or general contractor upon request; the initial homebuilder or general contractor shall be determined by whose name appears on the building permit;

(b) such initial lot owner, initial home builder and/or general contractor are hereby directed to achieve positive storm water drainage away from all building foundations in accordance with the standard grading plan referred to in (a) above;

(c) it shall be the responsibility of the property owner of record to maintain a positive drainage away from such lot owner's building as provided by the initial lot grading and/or subsequent re-grading in accordance with the standard grading plan and other regulations of record;

(d) the adverse drainage conditions caused by any alterations of the lot grades and/or drainage system after the initial lot grading and/or drainage system is accomplished in conformance with the standard grading plan and the approved final drainage plan are totally the responsibility of the property owner of record to correct at his or her cost; and

(e) the maintenance and repair of the storm water drainage system that is designed and constructed outside the rights-of-way of the County accepted streets is solely the responsibility of the property owner of record for the individual property on which the system or part thereof exists, except as provided in the County Drainage Ordinance, and these covenants and restrictions.

While the foregoing drainage requirements are the initial responsibility of the lot owners and their homebuilders or general contractors, see paragraph 27 on page 10 and all of the subsequent paragraphs on pages 10, 11, 12, and 13 ending with and including paragraph "(6) Notice", which provisions make it the ultimate responsibility of the Homeowners Association to maintain and repair such drainage facilities and common areas. The Association shall also be responsible for easements within or attached to this subdivision and outside of the County-accepted roads and rights-of-way.

16. VEHICLES; PARKING AND USE. Except as hereinafter provided, only non-commercial vehicles, automobiles and private/personal vans shall be parked or located on any lot. All commercial, service and delivery vehicles owned, used or leased by the owners (or owner's lessee of lots or residences in this subdivision) that are habitually parked in this subdivision must be provided an enclosed garage for their parking. No camper, motor home, recreational vehicle, truck, motorcycle, trailer, two(2) or four(4) wheeled vehicles and other similar vehicles and boats or other items used for water activity shall be parked or located on any lot unless parked or located within an enclosed garage.

No vehicle shall be habitually parked and left overnight on a street in this subdivision.

17. FUEL TANKS. No oil, gas or other fuel tanks or unsightly objects shall be allowed on any lot in this subdivision or placed in the basement or garages of any dwelling unless approved by the subdivision developer and in compliance with all governmental laws.

18. SIGNS. No signs shall be permitted in said subdivision, excepting that any owner of any lot who desires to sell said lot shall be permitted to place a "FOR SALE" sign on said lot. Model home or display signs shall also be permitted in connection with original construction on any lot.

19. ANIMALS. No animals, livestock or poultry of any kind shall be raised, bred or kept upon any lot, except that dogs, cats or other household pets may be kept provided they are not kept, bred or maintained for any commercial purposes. It will not be permitted for pets to be maintained in such a manner as to become an annoyance or nuisance to the neighbors, and their yards and the street.

20. NUISANCE. No noxious or offensive trade or activity shall be carried on upon any lot nor shall anything be done thereon which may be or may become an annoyance or nuisance to the neighborhood. Garage sales shall require the approval of the developer and/or the Association.

21. FIREARMS. There shall be no hunting with firearms or otherwise upon any of the real estate included within said subdivision or the discharge of any firearms thereon.

22. FRACTIONAL LOTS. No residence may be erected or placed on less than a full residential lot, except where less than one full residential lot is utilized in connection with an adjacent or abutting full residential lot for the construction and maintenance upon the combined single parcel of real estate of single family dwelling in all other respects complying with the terms and provisions of these covenants.

23. ACCEPTANCE OF DEED. The acceptance of a deed of conveyance to any lot or a part thereof in this subdivision by any person shall be construed to be acceptance and an affirmation by said person of each and all of the covenants, conditions, reservations and restrictions aforesaid, whether or not the same be set out or specified in such conveyance.

24. INJUNCTIVE RELIEF. Each and all of the covenants, reservations, conditions and restrictions contained herein shall
